

Victor Mougel completed his Bachelor's and Master's degree in Chemistry at the ENS of Lyon, and carried his PhD at the University of Grenoble under the supervision of Prof. Marinella Mazzanti. He then joined ETH Zürich as an ETH/Marie Curie Fellow before starting his independent career as a CNRS associate researcher at Collège de France in 2016. Since December 2018, he is a tenure track assistant professor in the Department of Chemistry and Applied Biosciences at ETH Zürich, where he develops a research program centered on the sustainable conversion of small molecules (CO<sub>2</sub>, N<sub>2</sub>, NO<sub>3</sub><sup>-</sup>) using molecular and heterogeneous electrocatalysts.
